A CABINET MEETING

McKinley and His Advisors Discuss Reports and the Message.

CUBAN PROBLEM AND FINANCES

Situation in Cuba, as it affects the United States, More Favorable Than Could Be Expected—Variety of Opinions on the Financial Question—Crandall's Successor.

WASHINGTON, Nov. 20.—The cabinet session yesterday afternoon was devoted largely to a discussion of the annual reports of the different members. The more important reports from the treasury, war and navy departments have not yet been made public and these were given consideration. The president also discussed various features of his message.

Two subjects which engaged the special attention of the cabinet were those relating to the manner in which the Cuban problem and the question of the finances should be handled in the president's message. The opinion was generally expressed that the Cuban situation as it affects the United States was even more favorable than could be expected and there was especial good feeling over the release of the crew of the Competitor.

This and other concessions were accepted as indicating a genuine desire on the part of the Sagasta administration to meet the wishes of the authorities of this country and bring the war to a hasty termination. If there was any doubt expressed as to Spain's maintenance of this line of policy it was not made public, but there was no dissent from the opinion that as long as that country should continue in her course of conciliation there was nothing left for the administration but to encourage it.

A wide variety of opinion was developed among the members of the cabinet as to the policy to be recommended on the financial question. There were indeed almost as many views expressed on the details involved in the discussion of this question as there were cabinet members present. Their differences related, however, largely to details, and much of the conversation turned upon the probable difficulties of getting Congress to unite upon any line of policy.

German Occupation Temporary. WASHINGTON, Nov. 20.—A cablegram from Admiral McNeill commanding the United States squadron on the China station announces that he has been informed by the German admiral that German forces have been landed at Kiaochoo Bay, "pending a settlement of indemnity for the murder of two German missionaries". The significance of the dispatch is the implication that the occupation is temporary.

Sulzer May Get a Consulate. WASHINGTON, Nov. 20.—Hon. Marcus M. Sulzer of Madison, Ind., was at the state department yesterday inquiring about the consulate at British Guiana on the African coast. It is said the place has been offered Mr. Sulzer and that he has signified to Mr. Fairbank that he will accept. It is worth \$4,500 per annum.

Illinois Man Succeeds Crandall. WASHINGTON, Nov. 20.—Public Printer Palmer has appointed Lewis C. Ferrell of Illinois to the position of superintendent of public documents in the government printing office to succeed F. A. Crandall, reduced. The appointee has for a number of years been the private secretary of Senator Cullom of Illinois.

WILL MAKE GOLD. Chicago Chemist Will Begin to Manufacture the Metal Next Monday.

CHICAGO, Nov. 20.—Next Monday morning, if his plan can be made ready in time, E. C. Brice, chemist, inventor, metallurgist and president as well as general manager of the National Metallurgical company, declares that he will commence on a large scale the manufacture of pure gold. The process by which this will be accomplished is the invention of Mr. Brice, who makes no secrets of his formula, protecting himself by patents covering the machinery and appliances necessary to make the artificial ore from pure antimony.

Brice announces that he will be able to make 10,000 tons of ore a day with each of his four furnaces. The ore, it is claimed, will yield, when refined by the usual process of refining base bullion, \$2,680 to the ton.

The cost of producing a ton of ore, the inventor of the process says, is very little, while the cost of refining it is also of small importance. Brice is a native of Dayton, O., and has long studied chemistry.

WILL REMAIN IDLE.

Scale Committees of Glassworkers and Manufacturers Fail to Agree.

PITTSBURGH, Nov. 20.—Contrary to all expectations no settlement of the window glassworkers' scale has been reached. The wage committees of the workers and manufacturers held two sessions yesterday in an endeavor to reach an agreement, but adjourned last night sine die with the matter as far from settlement as before the conference. Both sides make long technical statements in justification of the stand each has taken, but the only interest in them for the public is the fact that the factories of the country are to remain idle.

Gives \$10,000 More.

SPRINGFIELD, Mass., Nov. 20.—John D. Rockefeller has telegraphed the faculty of Mount Holyoke college at South Hadley that he will add \$10,000 to his previous gift of \$40,000 to complete the Rockefeller hall.

WEEKLY TRADE REVIEW.

Bradstreet Talks of the Existing Conditions in the Mercantile Field.

NEW YORK, Nov. 20.—Bradstreet's today says: There is a moderate improvement in staple prices and in distribution of woolen goods, shoes, hats and hardware in the region tributary to Chicago, St. Louis, Kansas City and Omaha. In South Carolina, Tennessee and Louisiana jobbers report a moderate revival in demand from interior merchants which represents some of the business delayed by yellow fever quarantines. Trade reports from Georgia and Texas are quite irregular. Some cottonplanters are compelled to sell cotton at a loss to meet advances made earlier in the season and have little or no surplus with which to buy merchandise. Others, notably in Texas, continue to hold cotton, which delays mercantile collections and in some sections has an unfavorable influence. Colder weather northwest and in the central Mississippi and Missouri river valleys have helped retail trade.

Manufacturers of iron, steel, agricultural implements, stoves, railway cars and woolen goods report an active demand and large output, although the appearance of speculative steel has resulted in weakening the price of billets and a like tendency on the part of Bessemer pig iron.

Higher prices are recorded for wheat, corn, oats, syrup, hides, leather, shoes and for turpentine. The reaction in iron and steel is likely to be followed by an advance in the present rate of consumption continues. Lower prices for wheat flour and pork are expected to recognize the advance on wheat and Indian corn, so that a lower price for copper is practically the only important decline in the week.

PATHETIC DEATH.

Young Artist Dies at Cincinnati From Nervous Shock.

CINCINNATI, Nov. 20.—A most pathetic death in this city was that last night of a brilliant young artist, Miss Clara Hoffman. She was the pride of the Cincinnati Art School and next Spring was going to Europe to complete her studies.

About the middle of September she took a rowboat ride with Bruce Horsfall, till then a reputable young artist. In the darkness in the middle of the river, against her piteous pleading, he doffed all his clothing, except a bathing suit which he had under his garments, and went in swimming. Miss Hoffman never recovered from the nervous shock and last night died from its effect.

WERE DISAPPOINTED.

Train Robbers Fled Guilty and Got Half Century Sentences.

AUSTIN, Nov. 20.—In the district court here L. W. Fisher and Felix Wolf pleaded guilty to robbing the International and Great Northern train at McNeill, 12 miles above here, on the afternoon of Oct. 12 and were sentenced to 30 and 45 years, respectively, in the state penitentiary. They were expecting very light sentences if they pleaded guilty which actuated them to do so. There were four charges against them. The other two train robbers are still untied.

OUTRAGED AND MURDERED.

Horrible Deed Committed in Cleveland In Broad Daylight.

CLEVELAND, Nov. 20.—Mrs. Nettie Winkler, wife of Jacob Winkler, was murdered in her home in this city yesterday afternoon. She was found on the floor with her skull crushed in from a blow with a hammer. She was removed to a hospital where she died. The evidences show that a desperate struggle had taken place and that she had been outraged. There is no clue to the perpetrator.

ARTILLERY WAGON EXPLODES.

Four Men Killed and Eight Are Fatally Wounded.

MEXICO CITY, Nov. 20.—An artillery wagon loaded with powder and gun cotton exploded here yesterday, killing four men and wounding eight soldiers and citizens fatally and shaking the ground for many blocks.

For Mothers!

The discomforts and dangers of child-birth can be almost entirely avoided. Wine of Cardui relieves expectant mothers. It gives tone to the system, and puts them in condition to do their work perfectly. That makes pregnancy less painful, shortens labor and hastens recovery after child-birth. It helps a woman bear strong healthy children.

has also brought happiness to thousands of homes barren for years. A few doses often brings joy to loving hearts that long for a darling baby. No woman should neglect to try it for this trouble. It cures nine cases out of ten. All druggists sell Wine of Cardui. \$1.00 per bottle.

For advice in cases requiring special directions, address, giving symptoms, to the Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

Mrs. LOUISA HALE, of Jefferson, Ga., says:

"When I first took Wine of Cardui I had been married three years, but could not have any children. Five months later I had a fine girl baby."

TERRIFIC FIRE LOSS

London Visited by a 5,000,000 Sterling Conflagration.

NO LIVES ARE REPORTED LOST.

One Hundred and Fifty Immense Warehouses Guttered—For Four Hours the Flames Were Wholly Beyond Control. Desperate Chances Taken to Save Property—St. Giles Church Damaged.

LONDON, Nov. 20.—One of the most disastrous fires in London's history since the great fire of 1866, broke out in a large block of buildings lying eastward of Aldersgate street and between that thoroughfare and Red Cross street yesterday afternoon. The flames were fanned by a strong wind and were fed by highly inflammable stocks of Christmas fancy goods and flimsy dress materials of all descriptions that filled every floor of the 6-story buildings in the old street. The conflagration gained headway with surprising rapidity and was soon far beyond the possibility of being checked by the few engines which were early on the spot. For four hours and a half the flames had their own way, and it was only after more than 100 engines had worked an hour that the chief of the fire brigade sent out the signal that the fire was under control.

The historic church of St. Giles has been much damaged. The principal injuries being to the roof, the old windows, the baptismal font and Milton's statue. The fire was due to an explosion on the premises of Walter Brown & Co., mantle manufacturers, on Hamsell street. Their third factory was crowded with girls when the fire broke out and it was instantly the scene of a semipanic, the frightened operatives running to the roof of the building and thence crossing to other buildings and so effecting their escape. In less than a quarter of an hour the flames had enveloped the adjoining warehouse, and then leaped to an enormous paper warehouse which was ablaze in less than ten minutes.

The rescue of operatives by the firemen, the hurrying of clerks to save books and valuable papers from the fire, the rushing here and there of employees attempting to carry to places of safety costly merchandise or other valuables, added to the confusion.

Saved His Hat and Cane.

Men risked their lives in desperate efforts to save daybooks, ledgers, feathers, jewelry, valuable chinaware, etc. One man actually hazarded his life to fetch his hat and cane, 300 feet of stone work and glass falling at his heels as he emerged from the building.

Several firemen were almost buried in the burning ruins, as front after front of the flaming warehouses fell in, hurling tons of brick and masonry into the street, while tons of fiery matter were falling in every direction, making it impossible to foresee where the conflagration would stop.

There was no abatement of the blaze until a check came in Jewin street and in Well street where the collapse of a wall on the right hand side of that thoroughfare was the means of saving the last building in the street. The width of Red Cross street, a comparatively broad thoroughfare, also formed a barrier there.

A very large force of firemen and about 200 engines have been working at a high pressure all night.

The district ravaged by fire is bounded by Aldersgate street, Red Cross, Market and Broad streets, and includes the intermediate streets Jewin, Hamsell, Well and Edmund, Jewin, Cressent and part of Australian avenue, Pauls alley, Cripple Gate Churchyard, Wood Street square, Monkwell street, Nicholls square and Fore street.

It is officially reported that 150 warehouses have been gutted. The latest estimate of the damage done places the amount at nearly £5,000,000 (\$25,000,000). Nearly all the British fire insurance companies are involved, and fire insurance shares are practically unsaleable.

Nearly 300 telephone wires have been cut, thus interrupting communication with many of the big provincial towns.

PATENT MEDICINES.

Ohio State Food Commissioners Are Investigating the Nostrums.

TOLEDO, O., Nov. 20.—State Food and Dairy Commissioner Joseph Blackburn is instituting a crusade against patent medicines containing cocaine, morphine, chloral and other narcotics, which are exercising a baleful influence upon the community. Acting under instructions of the state commissioner, Dairy and Food Inspector Fred Herbst and Attorney Walter Brown have filed six suits in the Toledo courts. Five of these are against Henry E. Marvin of Walbridge and Kinnam & Marvin of this city. The sixth is against W. L. Milner, representing the W. L. Milner company.

EDITOR KILLED.

J. W. Harris and His Brother Killed by an ex-Judge.

WACO, Tex., Nov. 20.—J. W. Harris, editor of the Waco Times-Herald (morning paper) and W. A. Harris, his brother, on one side and Judge G. B. Gerald, a prominent citizen, fought a duel to death on the street last night. W. A. Harris was shot dead, J. A. Harris wounded fatally, his body being paralyzed, and Gerald shot in the side and may die. The trouble was the outcome of mobbing of W. C. Brame, publisher of The Iconoclast. Editor Harris fired on the judge first.

Weather.

Indiana—Probably fair and warmer.

Ohio—Probably rain.

THRILLING EVENT.

Engineer and Fireman in Deadly Fight on Their Flying Train.

BIRMINGHAM, Ala., Nov. 20.—On a freight southward bound over the Louisville and Nashville railroad a thrilling encounter occurred between the fireman and engineer. Two men, one black and crazed by drink, the other white and conscious of deadly peril, engaged in a life and death struggle in the cab of a locomotive which ended in the death of the negro and the miraculous escape from the same fate by the white man.

The engineer told the fireman to stir up the fire, to which the latter paid no attention. The order was repeated, when the negro sprang at the engineer with revolver, but the shot missed the mark and the weapon was struck from the negro's hand. Instantly he drew a knife, cutting the engineer several times before he could get his gun, which he finally did and shot the negro through the heart. The train was stopped at Oxmore and the engineer told of his thrilling encounter and had his wounds dressed.

HAVANA NEWS.

Chamber of Commerce Wants Blanco to Permit Tobacco Exportation.

HAVANA, Nov. 20.—The chamber of commerce and the leaf tobacco merchants have informed Marshal Blanco that he ought to permit the exportation of the 10,000 bales now in market. These are valued at \$4,000,000. The manufacturers are barely working, and the growers are in dismay at the small prospects of sale. Moreover, they still have a part of the old crop in the warehouses. These considerations have been strongly urged upon the captain general.

The governor of Matanzas has suspended Police Inspector Enrique Garcia Carabano for whipping poor reconcentrados who had asked arms from an American correspondent in front of the coffeehouse El Louvre.

Senor Marcos Garcia, the autonomist governor of Santa Clara, has suspended the publication of a daily newspaper at Cienfuegos for reproducing an editorial of El Comercio.

The steamer Colon has arrived from Spain with 1,000 soldiers.

WOMAN TO BE HANGED.

Canadian Court Sentences Mrs. Sternaman to Death.

CATYUGA, Ont., Nov. 20.—Mrs. Adele Sternaman was last night found guilty of the murder of her husband, and sentenced to be hanged in the courtyard of the jail in this town on Jan. 30, 1898. When the jury came into court and announced their verdict the judge ordered the prisoner to stand, and ask her if she had anything to say why sentence should not be passed upon her.

The woman, whose face was deathly pale and whose voice trembled with emotion, turned toward the jurybox and exclaimed: "I declare before God that I am innocent of this crime." The judge then passed sentence of death upon her.

NEW RAILROAD.

Texas Road Which Will Open Gold, Silver and Coal Fields.

EL PASO, Tex., Nov. 20.—The contract for the construction of the El Paso and Northeastern road has been awarded to George S. Good & Co., of Lock Haven, Pa. This road opens up to El Paso the rich gold, silver and coal fields of the White Oaks country, and one of the finest agricultural and stock districts in the state.

The vast quantities of material for the new road are arriving and the contractors will begin throwing dirt Monday.

Hanged For Murder.

PADUCAH, Ky., Nov. 20.—George Weston, colored, was hanged here yesterday for the murder of Vinie Bell, a colored woman.

Death's face is not a pleasant thing to look upon, yet thousands of men and women go about daily with the reflection of death in their faces. The dull eyes, the sallow complexion, the sunken cheeks, the emaciated form, all tell the story of the insidious advances of that implacable foe—consumption. Doctors have declared that consumption is incurable. It is not. Thousands of consumptives have testified to their complete recovery after they were given up by the doctors and all hope was gone. It is simply a matter of going to the seat of the trouble which is imperfect and improper nutrition.

Dr. Pierce's Golden Medical Discovery does this. It corrects all disorders of the digestion. It invigorates the liver. It makes assimilation perfect. It fills the blood with the elements that build new healthy tissue in every organ of the body. It is the great blood-maker and flesh-builder. It cures 98 percent of all cases of consumption. All good druggists sell it.

H. Gaddis, Esq., of No. 313 S. J. Street, Tacoma, Washington, writes: "I was taken ill in 1882 with headache and pain in my back. I called on a doctor and he came three times. He said I was bilious, but I kept getting worse. I took a course so that I could not sleep only by being propped in bed. My lungs hurt me, and I got so poor that I was skin and bone. I thought I was going to die. I saw the 'Golden Medical Discovery' recommended for a cough. I tried a bottle of it and it did me so much good that I tried another one and it made me sound and well, so I recommend it to everybody. It saved my life."

A headache is a symptom of constipation. Dr. Pierce's Pleasant Pellets cure constipation, promptly and permanently. They do not gripe. Druggists sell them.

COAL TRAIN DITCHED

Twenty-Three Miners More or Less Seriously Injured.

GORBY ARRESTED IN KENTUCKY

Two Ninevah Citizens Think They Have Solved the Problem of Artificial Diamonds—Alleged Whitecappers Acquitted at Nashville—Going Into the Brick Business.

COAL BLUFFS, Ind., Nov. 20.—An awful accident occurred on the Chicago and Indiana coal railroad near here. The miners' train on its homeward journey and bearing 500 miners was wrecked on the Gladstone switch and two cars loaded with their human freight left the track, rolled down the embankment and lodged at the bottom of a ditch filled with water to the depth of several feet. The accident was caused by running over a horse which threw the caboose from the track and it dragged the other car with it.

Twenty-three men in all were more or less injured, three of whom suffer injuries that will prove fatal. Eighteen of the injured persons live in Brazil and five in Coal Bluffs.

MYSTERIOUS SHOOTING.

S. S. Gorby, ex-State Geologist of Indiana, Under Arrest in Kentucky.

CAVE CITY, Ky., Nov. 20.—A mysterious shooting occurred here between Herman Linde of Pittsburgh, Pa., and S. S. Gorby of Franklin, Ind., ex-state geologist of Indiana. The two men had been over in Metcalfe county investigating the alleged onyx beds there. While standing near the hotel talking and waiting for the northbound train a quarrel arose and a pistol shot was heard. Linde was slightly wounded and Gorby was arrested charged with the shooting. It is a question now whether or not Linde shot himself accidentally while trying to shoot Gorby. Gorby's examining trial takes place today. Linde is now threatened with arrest upon his own part.

ARTIFICIAL DIAMONDS.

Dr. Wright and Professor Gaud Believe They Have Solved the Problem.

NINEVAH, Ind., Nov. 20.—Professor Gaud and Dr. A. F. Wright, who have been conducting experiments here in crystallizing carbon, have met with practical success. The result of the experiments showed several small particles had collected and become crystallized as they passed through the earth in which the chemicals were confined. These particles have been examined by competent judges who pronounced them genuine. Both gentlemen feel confident that they have established the fact that diamonds can be made by artificial means.

ACQUITTED.

Alleged Whitecappers Declared Not Guilty by a Jury.

NASHVILLE, Ind., Nov. 20.—The trial of the alleged whitecappers terminated yesterday in a verdict of acquittal. The defendants were Joseph Brummel, Corry Rogers, John Stidd and William Dow. They were accused of taking William H. Sherwood and his daughter Lillie from their home on Aug. 18 and brutally whipping them. They easily established an alibi, and the jury was only out 10 minutes.

SPECIAL SESSION LEGISLATURE.

Petitions Being Circulated in the Gas Belt Asking For One.

ANDERSON, Ind., Nov. 20.—Petitions are being circulated throughout the gas belt asking the governor to call a special session of the legislature. The object sought is more stringent legislation relative to the waste of natural gas.

STATE G. A. R.

Date of the Columbus Encampment Fixed For May.

COLUMBUS, Ind., Nov. 20.—The state department officers of the G. A. R., W. R. C. S. of V. and L. A. S. met here yesterday and fixed upon May 18 and 19, 1898, as the date for the state encampment.

Thurman and Burgess.

INDIANAPOLIS, Nov. 20.—John S. Thurman, who was indicted by the federal grand jury on a charge of fraud, was discharged yesterday from practice before the interior department at Washington. Thurman was a patent lawyer. J. C. Burgess, who was indicted with Thurman, yesterday pleaded guilty to working a swindle on George Scott of Louisville, in a patent couplet.

Payne Returned to Chillicothe. MUNCIE, Ind., Nov. 20.—Albert Payne, the steelworker who was declared insane, has been taken to Chillicothe, O., by his brothers. Mrs. Payne is there with her parents. Payne went insane because of a report that his wife had been wronged at the Richmond Insane asylum. His brothers have employed attorneys to make a thorough investigation of the case.

Going Into the Brick Business. VALPARAISO, Ind., Nov. 20.—A syndicate headed by Secretary of State Owen, is preparing to purchase several hundred acres of land in this county for the purpose of establishing a large brick industry. Several weeks ago State Geologist Blatchley inspected this vicinity, and pronounced the clay to be the finest quality in the state.

Leaves the Academy for the Church. RICHMOND, Ind., Nov. 20.—Elwood O. Ellis, principal of the Fairmont academy, has accepted a pastoral call to the Friends church, this city. He has been clerk of the Indiana Yearly Meeting for several years.

A BENEFACTRESS WHO IS DOING INCALCULABLE GOOD.

Devotes Much of Her Time to the Benefits of Children—How She Helps Them.

From the Evening News, Detroit, Mich.

Mrs. John Tansey, of 130 Baker Street, Detroit, Michigan, is one of those women who always know just what to do in all trouble and sickness. One that is a mother to those in distress. To a reporter she said:

"I am the mother of ten children and have raised eight of them. Several years ago we had a serious time with my daughter, which began when she was about sixteen years old. She did not have any serious illness but seemed to gradually waste away. Having never had any consumption in our families, as we come of good old Irish and Scotch descent, we did not think it was that disease. Neither did she have a hacking cough, yet she grew thinner and paler each day. Our doctor called the disease by an odd name which, as I afterward learned, meant lack of blood.

"It is impossible to describe the feelings John and I had as we noticed our daughter slowly passing away from us. As a last resort I was induced to try Dr. Williams' Pink Pills for Pale People, made by the Dr. Williams Medicine Company, Schenectady, N. Y., which I understood contained in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. Before she had taken half a box, there was a decided change, and after three months' treatment you would not have recognized her, as her health was so greatly improved. She gained in flesh rapidly and soon was in perfect health. I have always kept the pills in the house since and have recommended them to every one I could. I have told many mothers about them and they have made some wonderful cures. One of the girls had a young lady friend that came to the house almost every day, and she was a sight. Honestly, she seemed almost transparent. I did not care to have my daughters associate with her, as I was afraid she would drop dead some day when they were out on the street. I recommended and begged her to take Dr. Williams' Pink Pills for Pale People, and told her of their sterling qualities and how the cost was slight, being only 50 cents a box of six boxes for \$2.50, at any druggist's. Finally I induced her to try them.

"They helped her wonderfully, and undoubtedly saved her life. She now recommends them to other young women.

"Every mother in this land should keep these pills in the house, as they are good for many other ailments. I don't believe in doctoring and never spent much money in medicines, but I can recommend Dr. Williams' Pink Pills to every mother that has a daughter just coming into womanhood."

Collection of Bank Drafts.

The case of the Reeves Pull y Company vs. Joseph Irwin, decided by the Appellate court yesterday, grew out of the failure of the Indianapolis National Bank, and involves the question as to whether a bank which accepts a draft for collection insures the solvency of a correspondent to which it sends a draft to be presented to the drawee.

The pulley company deposited for collection in Irwin's bank a draft on a Los Angeles, Cal. firm, and which Irwin collected through the Indianapolis National, which still held the money at the time of its failure. Three of the judges handed down their opinion that the bank did not undertake more than to use care in the selection of its correspondents, but Judges Robinson and Comstock dissent on the ground that there is no good reason why the rule declaring the liability of collection agencies and attorneys for the default of subagents selected by them should not apply as well to banks when they undertake to do the same kind of service.

Every Saturday Tourist Sleeping Car Route to California.

Commencing next Saturday night, and continuing every Saturday night thereafter, Midland Route tourist cars en route to Colorado, Utah and California will leave the Chicago Union Passenger Station of the Chicago, Milwaukee & St. Paul railway at 10 o'clock running over the Chicago and Omaha Short Line to Omaha, thence via Lincoln, Neb., Colorado Springs and Leadville, Colo., Salt Lake City and Ogden, Utah, Reno, Nevada and Sacramento, Cal., arriving at San Francisco at 8:45 p. m. Wednesday.

As will be noticed, this route is Midland through Northern Illinois, Iowa, Nebraska, Kansas, Colorado, (through the heart of the Rockies,) Utah, Nevada and California, affording a perfect panoramic view of prairie, mountain and coast scenery.

These popular every Saturday California excursions for both first and second class passengers (not foreign emigrants) are "personally conducted" by intelligent, competent and courteous "conductors" who will attend to the wants of all passengers en route. This is an entirely new feature of tourist car service and will be greatly appreciated by families or parties of friends traveling together, or by ladies traveling alone. Particular attention is paid to the care of children who usually get weary on a long journey.

Remember that the Midland Route Tourist Cars are sleeping cars and are supplied with all the accessories necessary to make the journey comfortable and pleasant, and the sleeping berth rate is but \$6.00 (for two persons) from Chicago to California.

Ask the nearest ticket agent for a tourist car "folder," giving complete information about the Midland Route or address "Eastern Manager Midland Route," No. 95 Adams street, Chicago, Ill., or Robt. C. Jones, Traveling Passenger Agent, C. M. & St. P. Ry., 40 Carew Building, Cincinnati, O.

They Read the Republican.

Successful buyers are usually careful readers of advertisements. There is the same difference in people buying as in the transaction of other business. One man or woman will buy a piece of property or go into a new business without careful investigation, he and usually comes out a loser. Another when he or she makes an investment will carefully examine into it, and consequently will make a successful purchase. One, when he concludes to buy a house will buy the first offered, or when he builds one will for lack of investigation pay twenty-five or thirty per cent. more than it is worth. Another always looks around and gets information first and when he buys or builds has little cause to regret it. So it is in making numberless little purchases for the household. Some people investigate and some buy blindly. Some read advertisements and some do not. Some know where the best goods and the best prices are and some never do. An ingenious, observing woman will read the merchants' advertisements in which they attempt to tell the large public about their goods. When she goes to buy she knows where to look for what she wants and where the bargains are to be had. It pays to read the advertisements.

Headache and Neuralgia cured by Dr. Miles' Pain Pills. "One cent a dose."

Boston's Great Preacher.

The Rev. J. B. Brady, D. D., Advises His Many Parishioners to Take Paine's Celery Compound.

The Rev. James Boyd Brady, pastor of the People's Temple, in Boston, presides over the destinies of the largest Methodist church in the country.

Big, candid, Scotch-Irish man that he is, Dr. Brady has built up the Temple financially and numerically, and to-day he is pastor of a flock of 1700.

Dr. Brady devotes himself with unflagging courage to anything he undertakes. The chief characteristic of his ministry has been progress, in number, financial condition and moral and spiritual growth. He is a man of plain, but vigorous words. So much has been said and written about Dr. Brady—his work, his progressive methods, his eloquence and his power as a minister, that the following letter from him will be convincing and helpful to many persons besides the large number who are every Sunday influenced for good by his powerful preaching. He writes:

Boston, Sept. 27, 1897.

Paine's celery compound, if widely and wisely used, would relieve nervousness, soothe restlessness, reduce sickness, strengthen the body, invigorate the mind, and add years of happiness to life.

JAMES BOYD BRADY.

Pastor People's Temple.

The man or woman who does not take time to get well will sooner or later have to take time to be ill.

Many live under the needless infliction of indigestion, nervousness, con-

stipation, and general weakness, and endure the consequent loss of health without considering how easily the cause of all this illness might be remedied.

Needful nerve and tissue nourishment is at the bottom of all permanent building up of the health.

Paine's celery compound looks out for the insidious weakening of the nervous system through malnutrition. It gives a healthy tone to the stomach, increases the blood supply, quiets and equalizes the irritated nerve action and promptly feeds the tissues when the bodily vigor is at its lowest ebb, and should not be further taxed.

The only cure, therefore, for rheumatism, neuralgia or general debility that is lasting in its good effects must rest on a radical cleansing of the blood and a building up of the nervous tissues. All this is best done by Paine's celery compound, because this remarkable remedy begins at the beginning, wherever there is disease, and establishes the health firmly and beyond any fear of falling back.

The worn-out person who cannot sleep should take Paine's celery compound. It is folly to imagine that every hour taken from sleep is an hour gained. Nothing under-mines health and energy like loss of sleep. The nervous system suffers as much from lack of sleep as it does from lack of nourishment. Both may be supplied

and a healthy condition insured by using Paine's celery compound.

The stay and staff of sound health is well nourished and well regulated nerves. Sufferers from sleeplessness, nervous dyspepsia or headache may be sure that every reservoir of nerve force has been tapped and exhausted by work, worry, too little sleep, or faulty nourishment, because of poor digestion and assimilation. As soon as such signs of nervous exhaustion are noticed, shaky hands, broken sleep, poor appetite, wasting disease, neuralgia or dyspepsia, take advantage of the remarkable restorative and regulating action of Paine's celery compound.

Nervous disorders increase in a sort of compound ratio. It is a thousand times easier to put a stop to nervous debility in its earlier stages than later on to correct nerve and brain exhaustion, that may be complicated by the heart, kidney or some other organic trouble.

Paine's celery compound must not be confounded with any of the plausible soundings, but really temporary makeshifts, whose cures are never permanent nor through-going, and only bring deferred hopes that make the heart sick. Paine's celery compound is the greatest nerve and brain invigorator and most reliable blood purifier the world has ever been blessed with.

A CABINET MEETING

McKinley and His Advisors Discuss Reports and the Message.

CUBAN PROBLEM AND FINANCES

Situation in Cuba, as It Affects the United States, More Favorable Than Could Be Expected—Variety of Opinions on the Financial Question—Crandall's Successor.

WASHINGTON, Nov. 20.—The cabinet session yesterday afternoon was devoted largely to a discussion of the annual report of the different members. The more important reports from the treasury, war and navy departments have not yet been made public and these were given consideration. The president also discussed various features of his message.

The two subjects which engaged the special attention of the cabinet were those relating to the manner in which the Cuban problem and the question of the finances should be handled in the president's message. The opinion was generally expressed that the Cuban situation as it affects the United States was even more favorable than could be expected and there was especial good feeling over the release of the crew of the Competitor.

This and other concessions were accepted as indicating a genuine desire on the part of the Sagasta administration to meet the wishes of the authorities of this country and bring the war to a hasty termination. If there was any doubt expressed as to Spain's maintenance of this line of policy it was not made public, but there was no dissent from the opinion that as long as that country should continue in her course of conciliation there was nothing left for the administration but to encourage it.

A wide variety of opinion was developed among the members of the cabinet as to the policy to be recommended on the financial question. There were indeed almost as many views expressed on the details involved in the discussion of this question as there were cabinet members present. Their differences related, however, largely to details, and much of the conversation turned upon the probable difficulties of getting congress to unite upon any line of policy.

German Occupation Temporary.
WASHINGTON, Nov. 20.—A cablegram from Admiral McNeill commanding the United States squadron on the China station announces that he has been informed by the German admiral that German forces have been landed at Kinohoch Bay, "pending a settlement of indemnity for the murder of two German missionaries." The significance of the dispatch is the implication that the occupation is temporary.

Sulzer May Get a Consulate.
WASHINGTON, Nov. 20.—Hon. Marcus M. Sulzer of Madison, Ind., was at the state department yesterday inquiring about the consulate at British Guiana on the African coast. It is said the place has been offered Mr. Sulzer and that he has signified to Mr. Fairbank that he will accept. It is worth \$4,500 per annum.

Illinois Man Succeeds Crandall.
WASHINGTON, Nov. 20.—Public Printer Palmer has appointed Lewis C. Ferrill of Illinois to the position of superintendent of public documents in the government printing office to succeed F. A. Crandall, reduced. The appointee has for a number of years been the private secretary of Senator Cullom of Illinois.

WILL MAKE GOLD.

Chicago Chemist Will Begin to Manufacture the Metal Next Monday.

CHICAGO, Nov. 20.—Next Monday morning, if his plan can be made ready in time, E. C. Brice, chemist, inventor, metallurgist and president as well as general manager of the National Metallurgical company, declares that he will commence on a large scale the manufacture of pure gold. The process by which this will be accomplished is the invention of Mr. Brice, who makes no secrets of his formula, protecting himself by patents covering the machinery and appliances necessary to make the artificial ore from pure antimony.

Brice announces that he will be able to make 10,000 tons of ore a day with each of his four furnaces. The ore, it is claimed, will yield, when refined by the usual process of refining base bullion, \$2,680 to the ton.

The cost of producing a ton of ore, the inventor of the process says, is very little, while the cost of refining it is also of small importance. Brice is a native of Dayton, O., and has long studied chemistry.

WILL REMAIN IDLE.

Scale Committees of Glassworkers and Manufacturers Fail to Agree.

PITTSBURGH, Nov. 20.—Contrary to all expectations no settlement of the window glassworkers' scale has been reached. The wage committees of the workers and manufacturers held two sessions yesterday in an endeavor to reach an agreement, but adjourned last night since die with the matter as far from settlement as before the conference. Both sides make long technical statements in justification of the stand each has taken, but the only interest in them for the public is the fact that the factories of the country are to remain idle.

Gives \$10,000 More.

SPRINGFIELD, Mass., Nov. 20.—John D. Rockefeller has telegraphed the faculty of Mount Holyoke college at South Hadley that he will add \$10,000 to his previous gift of \$40,000 to complete Rockefeller hall.

WEEKLY TRADE REVIEW.

Bradstreet Talks of the Existing Conditions in the Mercantile Field.

New York, Nov. 20.—Bradstreet's today says: There is a moderate improvement in staple prices and in distribution of woolen goods, shoes, hats and hardware in the region tributary to Chicago, St. Louis, Kansas City and Omaha. In South Carolina, Tennessee and Louisiana jobbers report a moderate revival in demand from interior merchants which represents some of the business delayed by yellow fever quarantines. Trade reports from Georgia and Texas are quite irregular. Some cottonplanters are compelled to sell cotton at a loss to meet advances made earlier in the season and have little or no surplus with which to buy merchandise. Others, notably in Texas, continue to hold cotton, which delays mercantile collections and in some sections has an unfavorable influence. Colder weather northwest and in the central Mississippi and Missouri river valleys have helped retail trade.

Manufacturers of iron, steel, agricultural implements, stoves, railway cars and woolen goods report an active demand and large output, although the appearance of speculative steel has resulted in weakening the price of billets and a like tendency on the part of Bessemer pig iron.

Higher prices are recorded for wheat, corn, oats, syrup, hides, leather, shoes and for turpentine. The reaction in iron and steel is likely to be followed by an advance in the present rate of consumption continues. Lower prices for wheat flour and pork are expected to recognize the advance on wheat and Indian corn, so that a lower price for copper is practically the only important decline in the week.

PATHETIC DEATH.

Young Artist Dies at Cincinnati From Nervous Shock.

CINCINNATI, Nov. 20.—A most pathetic death in this city was that last night of a brilliant young artist, Miss Clara Hoffman. She was the pride of the Cincinnati Art School and next Spring was going to Europe to complete her studies.

About the middle of September she took a rowboat ride with Bruce Horsfall, till then a reputable young artist. In the darkness in the middle of the river, against her piteous pleading, he doffed all his clothing, except a bathing suit which he had under his garments, and went in swimming. Miss Hoffman never recovered from the nervous shock and last night died from its effect.

WERE DISAPPOINTED.

Train Robbers Plead Guilty and Get Half Century Sentences.

AUSTIN, Nov. 20.—In the district court here L. W. Fisher and Felix Wolf pleaded guilty to robbing the International and Great Northern train at McNeill, 12 miles above here, on the afternoon of Oct. 12 and were sentenced to 50 and 45 years, respectively, in the state penitentiary. They were expecting very light sentences if they plead guilty which actually they did so. There were four charges against them. The other two train robbers are still untied.

OUTRAGED AND MURDERED.

Horrible Deed Committed in Cleveland In Broad Daylight.

CLEVELAND, Nov. 20.—Mrs. Nettie Winkler, wife of Jacob Winkler, was murdered in her home in this city yesterday afternoon. She was found on the floor with her skull crushed in from a blow with a hammer. She was removed to a hospital where she died. The evidences show that a desperate struggle had taken place and that she had been outraged. There is no clue to the perpetrator.

WACO, Tex., Nov. 20.—J. W. Harris, editor of the Waco Times-Herald (morning paper) and W. A. Harris, his brother, on one side and Judge G. B. Gerald, a prominent citizen, fought a duel to death on the street last night. W. A. Harris was shot dead. J. A. Harris wounded fatally, his body being paralyzed, and Gerald shot in the side and may die. The trouble was the outcome of mobbing of W. C. Brann, publisher of the Locustian. Editor Harris fired on the judge first.

TERRIFIC FIRE LOSS

London Visited by a 5,000,000 Sterling Conflagration.

NO LIVES ARE REPORTED LOST.

One Hundred and Fifty Immense Warehouses Gutted—For Four Hours the Flames Were Wholly Beyond Control. Desperate Chances Taken to Save Property—St. Giles Church Damaged.

LONDON, Nov. 20.—One of the most disastrous fires in London's history since the great fire of 1866, broke out in a large block of buildings lying eastward of Aldersgate street and between that thoroughfare and Red Cross street yesterday afternoon. The flames were fanned by a strong wind and were fed by highly inflammable stocks of Christmas fancy goods and flimsy dress materials of all descriptions that filled every floor of the 6-story buildings in the old street. The conflagration gained headway with surprising rapidity and was soon far beyond the possibility of being checked by the few engines which were early on the spot. For four hours and a half the flames had their own way, and it was only after more than 100 engines had worked an hour that the chief of the fire brigade sent out the signal that the fire was under control.

The historic church of St. Giles has been much damaged. The principal injuries being to the roof, the old windows, the baptismal font and Milton's statue.

The fire was due to an explosion on the premises of Walter Brown & Co., mantle manufacturers, on Habsell street. Their third factory was crowded with girls when the fire broke out and it was instantly the scene of a semipanic, the frightened operatives running to the roof of the building and thence crossing to other buildings and so effecting their escape. In less than a quarter of an hour the flames had enveloped the adjoining warehouse, and then leaped to an enormous paper warehouse which was ablaze in less than ten minutes.

The rescue of operatives by the firemen, the hurrying of clerks to save books and valuable papers from the fire, the rushing here and there of employees attempting to carry to places of safety costly merchandise or other valuables, added to the confusion.

Saved His Hat and Cane.

Men risked their lives in desperate efforts to save daybooks, ledgers, feathers, jewelry, valuable chinaware, etc. One man actually hazarded his life to fetch his hat and cane, 200 feet of stone work and glass falling at his heels as he emerged from the building.

Several firemen were almost buried in the burning ruins, as front after front of the flaming warehouses fell in, hurling tons of brick and masonry into the street, while tons of fiery matter were falling in every direction, making it impossible to foresee where the conflagration would stop.

There was no abatement of the blaze until a check came in Jewin street and in Well street where the collapse of a wall on the right hand side of that thoroughfare was the means of saving the last building in the street. The width of Red Cross street, a comparatively broad thoroughfare, also formed a barrier there.

A very large force of firemen and about 200 engines have been working at a high pressure all night.

The district ravaged by fire is bounded by Aldersgate street, Red Cross, Ma' enhead court and Bradford avenue and includes the intermediate streets Jewin, Habsell, Well and Edmund, Jewin Crescent and part of Australian avenue, Pauls alley, Cripple Gate Churchyard, Wood Street square, Monkwell street, Nicholls square and Fore street.

It is officially reported that 150 warehouses have been gutted. The latest estimate of the damage done places the amount at nearly \$5,000,000 (\$25,000,000). Nearly all the British fire insurance companies are involved, and fire insurance shares are practically unsalable.

Nearly 300 telephone wires have been cut, thus interrupting communication with many of the big provincial towns.

THRILLING EVENT.

Engineer and Fireman in Deadly Fight on Their Flying Train.

BIRMINGHAM, Ala., Nov. 20.—On a freight southward bound over the Louisville and Nashville railroad a thrilling encounter occurred between the fireman and engineer. Two men, one black and crazed by drink, the other white and conscious of deadly peril, engaged in a life and death struggle in the cab of a locomotive which ended in the death of the negro and the miraculous escape from the same fate by the white man.

The engineer told the fireman to stir up the fire, to which the latter paid no attention. The order was repeated, when the negro sprang at the engineer with revolver, but the shot missed the mark and the weapon was struck from the negro's hand. Instantly he drew a knife, cutting the engineer several times before he could get his gun, which he finally did and shot the negro through the heart. The train was stopped at Oxmore and the engineer told of his thrilling encounter and had his wounds dressed.

HAVANA NEWS.

Chamber of Commerce Wants Blanco to Permit Tobacco Exportation.

HAVANA, Nov. 20.—The chamber of commerce and the leaf tobacco merchants have informed Marshal Blanco that he ought to permit the exportation of the 10,000 bales now in market. These are valued at \$4,000,000. The manufacturers are barely working, and the growers are in dismay at the small prospects of sale. Moreover, they still have a part of the old crop in the warehouses. These considerations have been strongly urged upon the captain general.

The governor of Matanzas has suspended Police Inspector Enrique Garcia Carabana for whipping poor reconcentrados who had asked alms from an American correspondent in front of the coffeehouse El Louvre.

WOMAN TO BE HANGED.

Canadian Court Sentences Mrs. Sternman to Death.

CAYUGA, Ont., Nov. 20.—Mrs. Adele Sternman was last night found guilty of the murder of her husband, and sentenced to be hanged in the courtyard of the jail in this town on Jan. 20, 1898. When the jury came into court and announced their verdict the judge ordered the prisoner to stand, and ask her if she had anything to say why sentence should not be passed upon her.

The woman, whose face was deathly pale and whose voice trembled with emotion, turned toward the jurybox and exclaimed: "I declare before God that I am innocent of this crime." The judge then passed sentence of death upon her.

NEW RAILROAD.

Texas Road Which Will Open Coal, Silver and Coal Fields.

EL PASO, Tex., Nov. 20.—The contract for the construction of the El Paso and Northeastern road has been awarded to George S. Good & Co., of Lock Haven, Pa. This road opens up to El Paso the rich gold, silver and coal fields of the White Oaks country, and one of the finest agricultural and stock districts in the state.

The vast quantities of material for the new road are arriving and the contractors will begin throwing dirt Monday.

Hanged For Murder.

PADUCAH, Ky., Nov. 20.—George Wenston, colored, was hanged here yesterday for the murder of Vinie Bell, a colored woman.

Death's Face is not a Pleasant Thing to Look Upon.

Death's face is not a pleasant thing to look upon, yet thousands of men and women go about daily with the reflection of death in their faces. The dull eyes, the sallow complexion, the sunken cheeks, the emaciated form, all tell the story of the insidious advances of that implacable foe, consumption. Doctors have declared that consumption is incurable. It is not. Thousands of consumptives have testified to their complete recovery after they were given up by the doctors and all hope was gone. It is simply a matter of going to the seat of the trouble which is imperfect and improper nutrition.

Dr. Pierce's Golden Medical Discovery does this. It corrects all disorders of the digestion. It invigorates the liver. It makes assimilation perfect. It fills the blood with the elements that build new healthy tissue in every organ of the body. It is the great blood-maker and flesh-builder. It cures 98 per cent of all cases of consumption. All good druggists sell it.

COAL TRAIN DITCHED

Twenty-Three Miners More or Less Seriously Injured.

GORBY ARRESTED IN KENTUCKY

Two Sinecure Citizens Think They Have Solved the Problem of Artificial Diamonds—Alleged Whitecappers Acquitted at Nashville—Going into the Brick Business.

COAL BLUFFS, Ind., Nov. 20.—An awful accident occurred on the Chicago and Indiana coal railroad near here. The miners' train on its homeward journey and bearing 500 miners was wrecked on the Gladstone switch and two cars loaded with their human freight left the track, rolled down the embankment and lodged at the bottom of a ditch filled with water to the depth of several feet. The accident was caused by running over a horse which threw the caboose from the track and it dragged the other car with it.

Twenty-three men in all were more or less injured, three of whom suffer injuries that will prove fatal. Eighteen of the injured persons live in Brazil and five in Coal Bluffs.

MYSTERIOUS SHOOTING.

S. S. Gorby, ex-State Geologist of Indiana, Under Arrest in Kentucky.

CAVE CITY, Ky., Nov. 20.—A mysterious shooting occurred here between Herman Linde of Pittsburgh, Pa., and S. S. Gorby of Franklin, Ind., ex-state geologist of Indiana. The two men had been over in Metcalfe county investigating the alleged onyx beds there. While standing near the hotel talking and waiting for the northbound train a quarrel arose and a pistol shot was heard. Linde was slightly wounded and Gorby was arrested charged with the shooting. It is a question now whether or not Linde shot himself accidentally while trying to shoot Gorby. Gorby's examining trial takes place today. Linde is now threatened with arrest upon his own part.

ARTIFICIAL DIAMONDS.

Dr. Wright and Professor Gault Believe They Have Solved the Problem.

NINEVAH, Ind., Nov. 20.—Professor Gault and Dr. A. F. Wright, who have been conducting experiments here in crystallizing carbon, have met with practical success. The result of the experiments showed several small particles had collected and become crystallized as they passed through the earth in which the chemicals were confined. These particles have been examined by competent judges who pronounced them genuine. Both gentlemen feel confident that they have established the fact that diamonds can be made by artificial means.

ACQUITTED.

Alleged Whitecappers Declared Not Guilty by a Jury.

NASHVILLE, Ind., Nov. 20.—The trial of the alleged whitecappers terminated yesterday in a verdict of acquittal. The defendants were Joseph Brummel, Corry Rogers, John Stidd and William Dow. They were accused of taking William H. Sherwood and his daughter Lillie from their home on Aug. 18 and brutally whipping them. They easily established an alibi, and the jury was only out 10 minutes.

SPECIAL SESSION LEGISLATURE.

Petitions Being Circulated in the Gas Belt Asking For One.

ANDERSON, Ind., Nov. 20.—Petitions are being circulated throughout the gas belt asking the governor to call a special session of the legislature. The object sought is more stringent legislation relative to the waste of natural gas.

STATE G. A. R.

Date of the Columbus Encampment Fixed For May.

COLUMBUS, Ind., Nov. 20.—The state department officers of the G. A. R., W. R. C., S. of V. and L. A. S. met here yesterday and fixed upon May 18 and 19, 1898, as the date for the state encampment.

Thurman and Burgess.

INDIANAPOLIS, Nov. 20.—John S. Thurman, who was indicted by the federal grand jury on a charge of fraud, was disbursed yesterday from practice before the interior department at Washington. Thurman was a patent lawyer. J. C. Burgess, who was indicted with Thurman, yesterday pleaded guilty to working a swindle on George Scott of Louisville, in a patent coup.

Payne Returned to Chillicothe

MUNCIE, Ind., Nov. 20.—Albert Payne, the steelworker who was declared insane, has been taken to Chillicothe, O., by his brothers. Mrs. Payne is there with her parents. Payne went insane because of a report that his wife had been wronged at the Richmond Insane asylum. His brothers have employed attorneys to make a thorough investigation of the case.

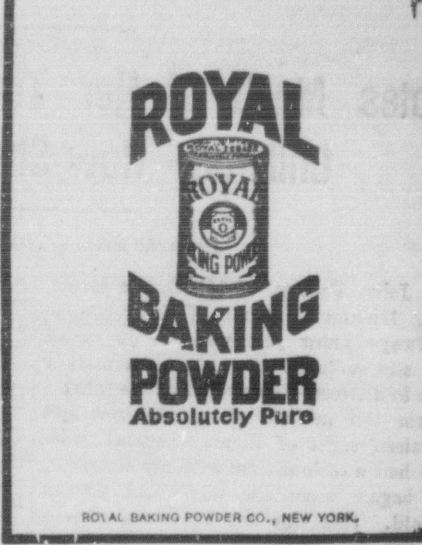

Going Into the Brick Business.

VALPARAISO, Ind., Nov. 20.—A syndicate headed by Secretary of State Owen, is preparing to purchase several hundred acres of land in this county for the purpose of establishing a large brick industry. Several weeks ago State Geologist Blatchley inspected this vicinity, and pronounced the clay to be the finest quality in the state.

Leaves the Academy for the Church.

RICHMOND, Ind., Nov. 20.—Elwood O. Ellis, principal of the Fairmount academy, has accepted a pastoral call to the Friends church, this city. He has been clerk of the Indiana Yearly Meeting for several years.

A Woman's Deed.

A BENEFACTRESS WHO IS DOING INCALCULABLE GOOD.

Devotes Much of Her Time to the Benefits of Children—How She Helps Them.

From the Evening News, Detroit, Mich.

Mrs. John Tansey, of 180 Baker Street, Detroit, Michigan, is one of those women who always know just what to do in all trouble and sickness. One that is a mother to those in distress. To a reporter she said: "I am the mother of ten children and have raised eight of them. Several years ago we had a serious time with my daughter, which began when she was about sixteen years old. She did not have any serious illness but seemed to gradually waste away. Having never had any consumption in our family, as we come of good old Irish and Scotch descent, we did not think it was that disease. Neither did she have a hacking cough, yet she grew thinner and paler each day. Our doctor called the disease by an odd name which, as I afterward learned, meant lack of blood. "It is impossible to describe the feelings John and I had as we noticed our daughter slowly passing away from us. As a last resort, I was induced to try Dr. Williams' Pink Pills for Pale People, made by the Dr. Williams' Medicine Company, Schenectady, N. Y., which I understood contained in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. Before she had taken half a box, there was a decided change, and after three months' treatment you would not have recognized her, as her health was so greatly improved. She gained in flesh rapidly and soon was in perfect health. I have always kept the pills in the house since and have recommended them to every one I could. I have told many mothers about them and they have made some wonderful cures. One of the girls had a young lady friend that came to the house almost every day, and she was a sight. Honestly, she seemed almost transparent. I did not care to have my daughters associate with her, as I was afraid she would drop dead some day when they were out on the street. I recommended and begged her to take Dr. Williams' Pink Pills for Pale People, and told her of their sterling qualities and how the cost was slight, being only 50 cents a box or six boxes for \$2.50, at any druggist's. Finally, I induced her to try them. "They helped her wonderfully, and undoubtedly saved her life. She now recommends them to other young women. "Every mother in this land should keep these pills in the house, as they are good for many other ailments. I don't believe in doctoring and never spent much money in medicine, but I can recommend Dr. Williams' Pink Pills to every mother that has a daughter just coming into womanhood."

WE NEVER GUESS

People will eventually insist on receiving everywhere the ideal service they get here without insisting. The public at large is not, as yet, half as particular as we are in the matter of high grade drugs or in regard to the accurate filling of their

PRESCRIPTIONS

In the buying, handling, selling or compounding of drugs, we never guess.

We make sure that everything is right in every particular.

WE WANT TO BE YOUR DRUGGIST

W. F. PETER, DRUGGIST.

WHY WE ARE IN THE Drug Business.

We want to Please our Customers.
We want to Please the Physicians.
We want to Please Ourselves.

And that's why we are in the drug business exclusively. We make it a study; we have no time for anything else. Our stock is selected from the best the market affords. That's the best any druggist can do, great or small. But we do it. We are especially equipped for prescription work.

WEATHER INDICATIONS.

CHICAGO, Ill., November 29.—For Indiana.—Partly cloudy tonight, with cooler north portions; Sunday showers and colder.

GARRIOTT.

Probably Fatal Accident.

A nineteen year old son of Robert Beatty, of near Jonesville, rode one of his horses to the village Thursday evening and hitched it to a rack. In a few minutes another man took the horse and was riding it when the owner attempted to take the horse from him. The animal reared and struck him in the head and the young man has been unconscious ever since. The people up there fear he is fatally hurt.

Sweet cider, cranberries, mincemeat, kraut, Teckemeyer's.

RED HOT BARGAINS in good Seymour Houses and Lots, \$300; up.

Go to Young & White for choice meats, sausage dressed poultry and spararibe.

For a choice cut or roast of fresh meat of any kind, or sausage go to the Sotting Meat Market, Hibner stand.

Coal has started down the river in large quantities much to the satisfaction of almost fuelless towns of the Ohio valley.

"I always let a cold go as it comes"—one says: which means that he overwork the system in getting rid of a cold rather than assist it by using Dr. Bull's Cough Syrup.

The Seymour feed store pays cash for wheat, corn and oats and sells feed at lowest prices. HENRY KLIPPEL.

The luncheon and social given at the home of Mrs. Lucy Cobb yesterday evening was well attended and a neat sum realized for the ladies' treasury. All who were present had an enjoyable time.

An effort is being made in Edinburg to secure the Zephyr Turner stove plant from Indianapolis. In order to capture it Edinburg capitalists must subscribe \$5,000 cash and buy the old foundry plant for \$5,000. The company agrees to employ twenty-five men within two months after completion of the plant and fifty within a year.

"I have been using Salvation Oil for backache stiffness in the neck, and pain in the side and found it an excellent cure. I keep it constantly on hand. Chas Haller, Union Hill, N. J."

There are ten things which no one has ever yet been sorry. These are: For doing good to all; for speaking evil of none; for hearing before judging; for thinking before speaking; for holding an angry tongue; for being kind to the distressed; for asking pardon for wrongs; for being patient towards everybody; for stopping the ears of a talebearer; for disbelieving most of the ill reports.

A CABINET MEETING

**McKinley and His Advisors Discuss
Reports and the Message.**

CUBAN PROBLEM AND FINANCES

Situation in Cuba, as it affects the United
States, More Favorable Than Could Be
Expected—Variety of Opinions on the
Financial Question—Crandall's Successor.WASHINGTON, Nov. 20.—The cabinet
session yesterday afternoon was devoted
largely to a discussion of the annual re-
ports of the different members. The
more important reports from the treasury,
war and navy departments have
not yet been made public and these
were given consideration. The president
also discussed various features of
his message.The two subjects which engaged the
special attention of the cabinet were
those relating to the manner in which
the Cuban problem and the question of
the finances should be handled in the
present message. The opinion was
generally expressed that the Cuban situation
as it affects the United States
was even more favorable than could be
expected and there was especial good
feeling over the release of the crew of
the Competitor.This and other concessions were
accepted as indicating a genuine desire
on the part of the Sagasta administration
to meet the wishes of the authorities of
this country and bring the war to a
hasty termination. If there was any
doubt expressed as to Spain's maintenance
of this line of policy it was not
made public, but there was no dissent
from the opinion that as long as that
country should continue in her course
of conciliation there was nothing left
for the administration but to encourage
it.A wide variety of opinion was developed
among the members of the cabinet
as to the policy to be recommended on
the financial question. There were in-
deed almost as many views expressed on
the details involved in the discussion of
this question as there were cabinet
members present. Their differences re-
lated, however, largely to details, and
much of the conversation turned upon
the probable difficulties of getting con-
gress to unite upon any line of policy.**German Occupation Temporary.**
WASHINGTON, Nov. 20.—A cable-
gram from Admiral McArthur commanding
the United States squadron on the China
station announces that he has been
informed by the German admiral that
German forces have been landed at
Kinohoch Bay, "pending a settlement
of indemnity for the murder of two
German missionaries." The significance
of the dispatch is the implication
that the occupation is temporary.**Sulzer May Get a Consulship.**
WASHINGTON, Nov. 20.—Hon. Marcus
M. Sulzer of Madison, Ind., was at the
state department yesterday inquiring
about the consulate at British Guiana
on the African coast. It is said the
place has been offered Mr. Sulzer and
that he has signified to Mr. Fairbank
that he will accept. It is worth \$4,500
per annum.**Illinois Man Succeeds Crandall.**
WASHINGTON, Nov. 20.—Public Printer
Palmer has appointed Lewis C. Ferrell
of Illinois to the position of superin-
tendent of public documents in the gov-
ernment printing office to succeed F. A.
Crandall, deceased. The appointee has
for a number of years been the private
secretary of Senator Callom of Illinois.

WILL MAKE GOLD.

Chicago Chemist Will Begin to Manu-
facture the Metal Next Monday.CHICAGO, Nov. 20.—Next Monday
morning, if his plan can be made ready
in time, E. C. Brice, chemist, inventor,
metallurgist and president as well as
general manager of the National Metal-
lurgical company, declares that he will
commence on a large scale the manu-
facture of pure gold. The process by
which this will be accomplished is the
invention of Mr. Brice, who makes no
secrets of his formula, protecting him-
self by patents covering the machinery
and appliances necessary to make the
artificial ore from pure antimony.Brice announces that he will be able
to make 10,000 tons of ore a day with
each of his four furnaces. The ore, it is
claimed, will yield, when refined by the
usual process of refining base bullion,
\$2,680 to the ton.The cost of producing a ton of ore, the
inventor of the process says, is very lit-
tle, while the cost of refining it is also
of small importance. Brice is a native
of Dayton, O., and has long studied
chemistry.

WILL REMAIN IDLE.

Scale Committees of Glassworkers and
Manufacturers Fail to Agree.PITTSBURGH, Nov. 20.—Contrary to all
expectations no settlement of the win-
dow glassworkers' scale has been
reached. The wage committees of the
workers and manufacturers held two
sessions yesterday in an endeavor to
reach an agreement, but adjourned last
night sine die with the matter as far
from settlement as before the confer-
ence. Both sides make long technical
statements in justification of the stand
each has taken, but the only interest in
them for the public is the fact that the
factories of the country are to remain
idle.

Gives \$10,000 More.

SPRINGFIELD, Mass., Nov. 20.—John
D. Rockefeller has telegraphed the fac-
ulty of Mount Holyoke college at South
Hadley that he will add \$10,000 to his
previous gift of \$40,000 to complete
McGuffey hall.

WEEKLY TRADE REVIEW.

Bradstreet Talks of the Existing Condi-
tions in the Mercantile Field.NEW YORK, Nov. 20.—Bradstreet's to-
day says: There is a moderate improve-
ment in staple prices and in distribution
of woolen goods, shoes, hats and hard-
ware in the region tributary to Chicago,
St. Louis, Kansas City and Omaha. In
South Carolina, Tennessee and Louisi-
ana jobbers report a moderate revival in
demand from interior merchants which
represents some of the business delayed
by yellow fever quarantines. Trade re-
ports from Georgia and Texas are quite
irregular. Some cottonplanters are com-
pelled to sell cotton at a loss to meet ad-
vances made earlier in the season and
have little or no surplus with which to
buy merchandise. Others, notably in
Texas, continue to hold cotton, which
delays mercantile collections and in
some sections has an unfavorable influ-
ence. Colder weather northwest and
in the central Mississippi and Missouri
river valleys have helped retail trade.Manufacturers of iron, steel, agricul-
tural implements, stoves, railway cars
and woolen goods report an active de-
mand and large output, although the
appearance of speculative steel has re-
sulted in weakening the price of billets
and a like tendency on the part of Besse-
mer pig iron.Higher prices are recorded for wheat,
corn, oats, syrup, hides, leather, shoes
and for turpentine. The reaction in
iron and steel is likely to be followed by
an advance if the present rate of con-
sumption continues. Lower prices for
wheat flour and pork are expected to
recognize the advance on wheat and in-
dian corn, so that a lower price for cop-
per is practically the only important de-
cline in the week.

PATHETIC DEATH.

Young Artist Dies at Cincinnati From
Nervous Shock.CINCINNATI, Nov. 20.—A most pa-
thetic death in this city was that last
night of a brilliant young artist, Miss
Clara Hoffman. She was the pride of
the Cincinnati Art School and next
Spring was going to Europe to complete
her studies.About the middle of September she
took a rowboat ride with Bruce Hors-
fall, till then a reputable young artist.
In the darkness in the middle of the
river, against her piteous pleading, he
dofted all his clothing, except a bathing
suit which he had under his garments,
and went in swimming. Miss Hoffman
never recovered from the nervous shock
and last night died from its effect.

WERE DISAPPOINTED.

Train Robbers Plead Guilty and Get
Half Century Sentences.AUSTIN, Nov. 20.—In the district
court here L. W. Fisher and Felix
Wolf pleaded guilty to robbing the
International and Great Northern train
at McNeill, 12 miles above here, on the
afternoon of Oct. 12 and were sentenced
to 50 and 45 years, respectively, in the
state penitentiary. They were expect-
ing very light sentences if they plead
guilty which actuated them to do so.
There were four charges against them.
The other two train robbers are still un-
tried.

OUTRAGED AND MURDERED.

Horrible Deed Committed in Cleveland
In Broad Daylight.CLEVELAND, Nov. 20.—Mrs. Nettie
Winkler, wife of Jacob Winkler, was
murdered in her home in this city yester-
day afternoon. She was found on
the floor with her skull crushed in from
a blow with a hammer. She was re-
moved to a hospital where she died.
The evidences show that a desperate
struggle had taken place and that she
had been outraged. There is no clue to
the perpetrator.

ARTILLERY WAGON EXPLODES.

Four Men Killed and Eight Are Fatally
Wounded.MEXICO CITY, Nov. 20.—An artillery
wagon loaded with powder and gun-
cotton exploded here yesterday, killing
four men and wounding eight soldiers
and citizens fatally and shaking the
ground for many blocks.

PATENT MEDICINES.

Ohio State Food Commissioners Are In-
vestigating the Nostrums.TOLEDO, O., Nov. 20.—State Food and
Dairy Commissioner Joseph Blackburn
is instituting a crusade against patent
medicines containing cocaine, morphine,
chloral and other narcotics, which are
exercising a baleful influence upon the
community. Acting under instructions
of the state commissioner, Dairy and
Food Inspector Fred Herbst and Attorney
Walter Brown have filed six suits in
the Toledo courts. Five of these are
against Henry E. Marvin of Wadsworth
and Kinman & Marvin of this city. The
sixth is against W. L. Milner, repre-
senting the W. L. Milner company.

TERRIFIC FIRE LOSS

London Visited by a 5,000,000
Sterling Conflagration.

NO LIVES ARE REPORTED LOST.

One Hundred and Fifty Immense Ware-
houses Gunned—For Four Hours the
Flames Were Wholly Beyond Control.
Desperate Chances Taken to Save
Property—St. Giles Church Damaged.LONDON, Nov. 20.—One of the most
disastrous fires in London's history
since the great fire of 1866, broke out in
a large block of buildings lying east-
ward of Aldersgate street and between
that thoroughfare and Red Cross street
yesterday afternoon. The flames were
fanned by a strong wind and were fed
by highly inflammable stocks of Christ-
mas fancy goods and flimsy dress ma-
terials of all descriptions that filled
every floor of the 6-story buildings in
the old street. The conflagration gained
headway with surprising rapidity and
was soon far beyond the possibility of
being checked by the few engines which
were early on the spot. For four hours
and a half the flames had their own
way, and it was only after more than
100 engines had worked an hour that
the chief of the fire brigade sent out the
signal that the fire was under control.The historic church of St. Giles has
been much damaged. The principal in-
juries being to the roof, the old windows,
the baptismal font and Milton's statue.
The fire was due to an explosion on
the premises of Walter Brown & Co.,
mantel manufacturers, on Habsell
street. Their third factory was crowded
with girls when the fire broke out and
it was instantly the scene of a semi-
panic, the frightened operatives running
to the roof of the building and thence
crossing to other buildings and so effect-
ing their escape. In less than a quarter
of an hour the flames had enveloped the
adjoining warehouse, and then leaped
to an enormous paper warehouse which
was ablaze in less than ten minutes.The rescue of operatives by the fire-
men, the hurrying of clerks to save
books and valuable papers from the fire,
the rushing here and there of employees
attempting to carry to places of safety
costly merchandise or other valuables,
added to the confusion.

WOMAN TO BE HANGED.

Canadian Court Sentences Mrs. Sterna-
man to Death.CAYUGA, Ont., Nov. 20.—Mrs. Adele
Sternman was last night found guilty
of the murder of her husband, and sen-
tenced to be hanged in the courtyard of
the jail in this town on Jan. 20, 1898.
When the jury came into court and an-
nounced their verdict the judge ordered
the prisoner to stand, and ask her if she
had anything to say why sentence
should not be passed upon her.The woman, whose face was deathly
pale and whose voice trembled with
emotion, turned toward the jurybox and
exclaimed: "I declare before God that
I am innocent of this crime." The
judge then passed sentence of death up-
on her.

THRILLING EVENT.

Engineer and Fireman in Deadly Fight
on Their Flying Train.BIRMINGHAM, Ala., Nov. 20.—On a
freight southward bound over the Louis-
ville and Nashville railroad a thrilling
encounter occurred between the fireman
and engineer. Two men, one black and
crazed by drink, the other white and
conscious of deadly peril, engaged in
a life and death struggle in the cab of
a locomotive which ended in the death
of the negro and the miraculous escape
from the same fate by the white man.The engineer told the fireman to stir
up the fire, to which the latter paid no
attention. The order was repeated,
when the negro sprang at the engineer
with revolver, but the shot missed the
mark and the weapon was struck from
the negro's hand. Instantly he drew a
knife, cutting the engineer several times
before he could get his gun, which he
finally did and shot the negro through
the heart. The train was stopped at
Oxmore and the engineer told of his
thrilling encounter and had his wounds
dressed.

HAVANA NEWS.

Chamber of Commerce Wants Blanco to
Permit Tobacco Exportation.HAVANA, Nov. 20.—The chamber of
commerce and the leaf tobacco mer-
chants have informed Marshal Blanco
that he ought to permit the exportation
of the 10,000 bales now in market. These
are valued at \$4,000,000. The manu-
facturers are barely working, and the
growers are in dismay at the small pros-
pects of sale. Moreover, they still have
a part of the old crop in the warehouses.
These considerations have been strongly
urged upon the captain general.The governor of Matanzas has sus-
pended Police Inspector Enrique Garcia
Carachano for whipping poor recon-
citrados who had asked alms from an
American correspondent in front of the
cafehouse El Louvre.Senor Marcos Garcia, the autonomist
governor of Santa Clara, has suspended
the publication of a daily newspaper at
Cienfuegos for reproducing an editorial
of El Comercio.The steamer Colon has arrived from
Spain with 1,600 soldiers.

NEW RAILROAD.

Texas Road Which Will Open Gold, Sil-
ver and Coal Fields.EL PASO, Tex., Nov. 20.—The con-
tract for the construction of the El Paso
and Northeastern road has been awarded
to George S. Good & Co., of Lock
Haven, Pa. This road opens up to El
Paso the rich gold, silver and coal fields
of the White Oaks country, and one of
the finest agricultural and stock dis-
tricts in the state.The vast quantities of material for
the new road are arriving and the con-
tractors will begin throwing dirt Mon-
day.

Hanged For Murder.

PADUCAH, Ky., Nov. 20.—George
Wenston, colored, was hanged here yes-
terday for the murder of Vinie Bell, a
colored woman.

Solved the Problem of Artificial Dia-
monds—Alleged Whitecappers Ac-
cused at Nashville—Going Into the
Brick Business.COAL BLUFFS, Ind., Nov. 20.—An
awful accident occurred on the Chicago
and Indiana coal railroad near here. The
miners' train on its homeward journey
and bearing 500 miners was wrecked on
the Gladstone switch and two cars
loaded with their human freight left
the track, rolled down the embankment
and lodged at the bottom of a ditch
filled with water to the depth of several
feet. The accident was caused by run-
ning over a horse which threw the ca-
boose from the track and it dragged the
other car with it.Twenty-three men in all were more
or less injured, three of whom suffer
injuries that will prove fatal. Eighteen
of the injured persons live in Brazil and
five in Coal Bluffs.

MYSTERIOUS SHOOTING.

S. S. Gorby, ex-State Geologist of Indiana,
Under Arrest in Kentucky.CAVE CITY, Ky., Nov. 20.—A myster-
ious shooting occurred here between
Herman Linde of Pittsburgh, Pa., and S.
S. Gorby of Franklin, Ind., ex-state
geologist of Indiana. The two men had
been over in Metcalfe county investigat-
ing the alleged onyx beds there. While
standing near the hotel talking and
waiting for the northbound train a
quarrel arose and a pistol shot was
heard. Linde was slightly wounded
and Gorby was arrested charged with
the shooting. It is a question now
whether or not Linde shot himself acci-
dentally while trying to shoot Gorby.
Gorby's examining trial takes place to-
day. Linde is now threatened with ar-
rest upon his own part.

ARTIFICIAL DIAMONDS.

Dr. Wright and Professor Gant Believe
They Have Solved the Problem.NINEVAH, Ind., Nov. 20.—Professor
Gant and Dr. A. F. Wright, who have
been conducting experiments here in
crystallizing carbon, have met with prac-
tical success. The result of the experi-
ments showed several small particles
had collected and become crystallized as
they passed through the earth in which
the chemicals were confined. These
particles have been examined by com-
petent judges who pronounced them
genuine. Both gentlemen feel con-
fident that they have established the fact
that diamonds can be made by artificial
means.

ACQUITTED.

Alleged Whitecappers Declared Not
Guilty by a Jury.NASHVILLE, Ind., Nov. 20.—The trial
of the alleged whitecappers terminated
yesterday in a verdict of acquittal. The
defendants were Joseph Brummett,
Corry Rogers, John Strid and William
Dow. They were accused of taking
William H. Sherwood and his daughter
Lillie from their home on Aug. 18 and
brutally whipping them. They easily
established an alibi, and the jury was
only out 10 minutes.

SPECIAL SESSION LEGISLATURE.

Petitions Being Circulated in the Gas
Belt Asking For One.ANDERSON, Ind., Nov. 20.—Petitions
are being circulated throughout the gas
belt asking the governor to call a spe-
cial session of the legislature. The ob-
ject sought is more stringent legislation
relative to the waste of natural gas.

Probably Fatal Accident.

A nineteen year old son of Robert Beatty, of near Jonesville, rode one of his horses to the village Thursday evening and hitched it to a rack. In a few minutes another man took the horse and was riding it when the owner attempted to take the horse from him. The animal reared and struck him in the head and the young man has been unconscious ever since. The people up there fear he is fatally hurt.

Every Saturday Tourist Sleeping Car Route to California.

Commencing next Saturday night, and continuing every Saturday night thereafter, Midland Route tourist cars en route to Colorado, Utah and California will leave the Chicago Union Passenger Station of the Chicago, Milwaukee & St. Paul railway at 10 o'clock running over the Chicago and Omaha Short Line to Omaha, thence via Lincoln, Neb., Colorado Springs and Leadville, Colo., Salt Lake City and Ogden, Utah, Reno, Nevada and Sacramento, Cal., arriving at San Francisco at 8:45 p. m. Wednesday.

As will be noticed, this route is Midland through Northern Illinois, Iowa, Nebraska, Kansas, Colorado, (through the heart of the Rockies), Utah, Nevada and California, affording a perfect panoramic view of prairie, mountain and coast scenery.

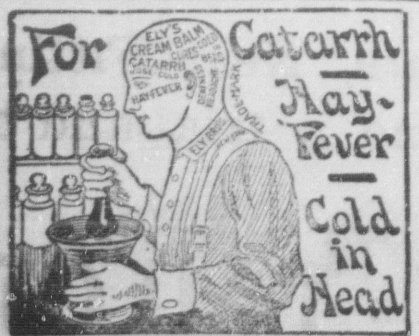

These popular every Saturday California excursions for both first and second class passengers (not foreign emigrants) are "personally conducted" by intelligent, competent and courteous "conductors" who will attend to the wants of all passengers en route. This is an entirely new feature of tourist car service and will be greatly appreciated by families or parties of friends traveling together, or by ladies traveling alone. Particular attention is paid to the care of children who usually get weary on a long journey.

Remember that the Midland Route Tourist Cars are sleeping cars and are supplied with all the accessories necessary to make the journey comfortable and pleasant, and the sleeping berth rate is but \$6.00 (for two persons) from Chicago to California.

Ask the nearest ticket agent for a tourist car "folder," giving complete information about the Midland Route or address "Eastern Manager Midland Route," No. 95 Adams street, Chicago, Ill., or Robt. C. Jones, Traveling Passenger Agent, C. M. & St. P. Ry., 40 Carver Building, Cincinnati, O.

P. J.—Berth reservations are made in the order received up to each Saturday morning. First come first served. n30

They Read the Republican.

Successful buyers are usually careful readers of advertisements. There is the same difference in people buying as in the transaction of other business. One man or woman will buy a piece of property or go into a new business without careful investigation, and he usually comes out a loser. Another when he or she makes an investment will carefully examine into it, and consequently will make a successful purchase. One, when he concludes to buy a house will buy the first offered, or when he builds one will for lack of investigation pay twenty-five or thirty per cent. more than it is worth. Another always looks around and gets information first and when he buys or builds has little cause to regret it. So it is in making numberless little purchases for the household. Some people investigate and some buy blindly. Some read advertisements and some do not. Some know where the best goods and the best prices are and some never do. An ingenious, observant woman will read the merchants' advertisements in which they attempt to tell the large public about their goods. When she goes to buy she knows where to look for what she wants and where the bargains are to be had. It pays to read the advertisements.

Boston's Great Preacher.

The Rev. J. B. Brady, D. D., Advises His Many Parishioners to Take Paine's Celery Compound.

The Rev. James Boyd Brady, pastor of the People's Temple, in Boston, presides over the destinies of the largest Methodist church in the country.

Big, candid, Scotch-Irish man that he is, Dr. Brady has built up the Temple financially and numerically, and to-day he is pastor of a flock of 1700.

Dr. Brady devotes himself with unflagging courage to anything he undertakes. The chief characteristic of his ministry has been progress, in number, financial condition and moral and spiritual growth. He is a man of plain, but vigorous words. So much has been said and written about Dr. Brady—his work, his progressive methods, his eloquence and his power as a minister, that the following letter from him will be convincing and helpful to many persons besides the large number who are every Sunday influenced for good by his powerful preaching. He writes:

Boston, Sept. 27, 1897.

Paine's celery compound, if widely and wisely used, would relieve nervousness, soothe restlessness, reduce sickness, strengthen the body, invigorate the mind, and add years of happiness to life.

JAMES BOYD BRADY.

Pastor People's Temple.

The man or woman who does not take time to get well will sooner or later have to take time to be ill.

Many live under the needless infliction of indigestion, nervousness, con-

stipation, and general weakness, and endure the consequent loss of health without considering how easily the cause of all this illness might be remedied.

Nervous nerve and tissue nourishment is at the bottom of all permanent building up of the health.

Paine's celery compound looks out for the insidious weakening of the nervous system through malnutrition. It gives a healthy tone to the stomach, increases the blood supply, quiets and equalizes the irritated nerve action and promptly feeds the tissues when the bodily vigor is at its lowest ebb, and should not be further taxed.

The only cure, therefore, for rheumatism, neuralgia or general debility that is lasting in its good effects must rest on a radical cleansing of the blood and a building up of the nervous tissues. All this is best done by Paine's celery compound, because this remarkable remedy begins at the beginning, wherever there is disease, and establishes the health firmly and beyond any fear of falling back.

The worn-out person who cannot sleep should take Paine's celery compound. It is folly to imagine that every hour taken from sleep is an hour gained. Nothing under-mines health and energy like loss of sleep. The nervous system suffers as much from lack of sleep as it does from lack of nourishment. Both may be supplied

and a healthy condition insured by using Paine's celery compound.

The stay and staff of sound health is well nourished and well regulated nerves. Sufferers from sleeplessness, nervous dyspepsia or headache may be sure that every reservoir of nerve force has been tapped and exhausted by work, worry, too little sleep, or faulty nourishment, because of poor digestion and assimilation. As soon as such signs of nervous exhaustion are noticed, shaky hands, broken sleep, poor appetite, wasting disease, neuralgia or dyspepsia, take advantage of the remarkable restorative and regulating action of Paine's celery compound:

Nervous disorders increase in a sort of compound ratio. It is a thousand times easier to put a stop to nervous debility in its earlier stages than later on to correct nerve and brain exhaustions, that may be complicated by the heart, kidney or some other organic trouble.

Paine's celery compound must not be confounded with any of the plausible soundings, but really temporary makeshifts, whose cures are never permanent nor through-going, and only bring deferred hopes that make the heart sick. Paine's celery compound is the greatest nerve and brain invigorator and most reliable blood purifier the world has ever been blessed with.
